My Auto Service Receptionist

You service the vehicles. We help handle enquiries, book customers and promote your workshop.

1,000 ₪

per month · 100 incoming call minutes included

After 100 minutes: ILS 18 per actual call-hour, equivalent to ILS 0.30/min. Prices exclude VAT; VAT is added where applicable.

Launch, the agreed website, basic CRM setup and map profiles are included without a separate setup fee. We agree scope and dates in writing.

Enquiry handling and scheduling. Your workshop carries out diagnosis and repairs.

Included in the subscription

Incoming call handling

Configure answers using approved hours, location, vehicle makes, services, pricing and intake procedures. The assistant captures the request and hands complex questions to your team.

Workshop CRM or calendar

Set up Galany CRM and bookings for servicing, inspections or repairs. A supported connection can add appointments to your calendar. Agree slots and workshop capacity, then test confirmations and duplicate prevention.

Workshop website

Build or improve a website with your services, supported vehicle makes, business contacts and an enquiry form. You approve the information and assets. The agreed website scope is included.

Google Maps and Yandex Maps

Create or update profiles with business name, location, hours, services and website. Avoid duplicates. Verification requires owner participation and platform approval.

Included in the subscription

One content set each week

Develop one topic about your workshop services, adapt it for Instagram, Facebook, LinkedIn and X, and create one short YouTube video. Publish after approval and authorised account access. Your workshop reviews technical claims.

SEO and AI-search discoverability

Improve site structure, metadata, service descriptions, FAQs and consistent business information. Help search and AI services find and understand the pages. Indexing and ChatGPT/Gemini recommendations are not guaranteed.

Responsible review management

Monitor available reviews, prepare replies and help request genuine feedback from real customers without incentives or selecting only happy customers. Do not publish personal or vehicle details without permission.

The aim is fewer interruptions and more organised enquiry handling. We do not promise zero missed calls, a guaranteed number of jobs, higher ratings or search positions.

Clear monthly pricing

Example: 160 call minutes in a month = 1,000 + (160 - 100) × 0.30 = ILS 1,018 before applicable VAT and agreed external costs.

Domain, hosting, ad spend, paid telephony and third-party subscriptions, where needed, are agreed and paid separately. Paid advertising is not included in the subscription. Work beyond the agreed scope requires approval of a separate quote.

Controlled launch and service boundaries

Customer telephony is at pilot stage. Test language, number, routing and human handoff before launch. Connect and test CRM or calendar access separately. Agree permissions, data minimisation and retention. The assistant does not diagnose faults or confirm that a vehicle is safe to drive. Your workshop confirms the diagnosis, final price, parts availability and completion time. Dangerous situations go to your team or an appropriate emergency service.
